100 Edition A car for collectors

TOYOTA GAZOO Racing's successful GR Supra GT4 customer racing car celebrates a new production milestone with the launch of the exclusive "100 Edition" aimed specifically at collectors.

The limited edition track day car is launched to mark the delivery of the 100th GR Supra GT4 race car and just three examples will be built, making it one of the rarest Toyota vehicles ever launched.

Since the start of the 2020 season, the GR Supra GT4 has been one of the most successful GT4 race cars worldwide, winning races and titles in numerous national and international championships on three different continents.

To maintain that high level of performance, TOYOTA GAZOO Racing introduced the GR Supra GT4 EVO for the 2023 season. The "100 Edition" is based on the EVO car featuring upgraded suspension, powertrain and bodywork.

Orange is the new chic

The collector-focused GR Supra GT4 "100 Edition" is delivered exclusively in Plasma Orange colour, matching the exterior of the parallel production model.

Distinctive design

The 100 Edition features a unique aero package comprising a larger bonnet vent and new dive plane devices at the front which improve downforce.

ENDURANCE LIGHTS

The endurance LED headlights offer better visibility in the dark and pay homage to TOYOTA GAZOO Racing's recent endurance racing heritage.

Light, look & sound

The GR Supra GT4 100 Edition features bespoke details including carbon fibre wing mirrors, endurance headlights and a new exhaust system, without muffler.

EXHAUST SYSTEM

A new exhaust system, without muffler, is fitted to amplify the satisfying, throaty roar of the 3.0-liter six-cylinder turbo engine.

Celebrating a milestone

The car's exclusive status is expressed through a unique badge on the dashboard as well as 100 Edition logos on both seats and the indoor car cover.

CAR COVER

All 100 Edition cars come with a black, exclusively branded indoor car cover to protect the limited edition car in your collection.
